

needs or concerns following completion of a previous EQIP contract on the same tract.

§ 1466.22 Conservation practice operation and maintenance.

The contract shall incorporate the operation and maintenance of conservation practices applied under the contract. The participant shall operate and maintain the conservation practice for its intended purpose for the life span of the conservation practice, as identified in the contract or conservation plan, as determined by CCC. Conservation practices installed before the execution of a contract, but needed in the contract to obtain the environmental benefits agreed upon, are to be operated and maintained as specified in the contract. NRCS may periodically inspect the conservation practice during the life span of the practice as specified in the contract to ensure that operation and maintenance is occurring.

§ 1466.23 Cost-share and incentive payments.

(a)(1) The maximum direct Federal share of cost-share payments to a participant shall not be more than 75 percent of the projected cost of a structural or vegetative practice. The direct Federal share of cost-share payments to a participant shall be reduced proportionately below 75 percent, or the cost-share limit as set in paragraph (a)(3) of this section, to the extent that total financial contributions for a structural or vegetative practice from all public and private entity sources exceed 100 percent of the projected cost of the practice.

(2) CCC shall provide incentive payments to participants for a land management practice in an amount and at a rate necessary to encourage a participant to perform the land management practice that would not otherwise be initiated without government assistance.

(3) CCC shall set the cost-share and incentive payment limits, as determined by:

(i) The designated conservationist, in consultation with the local work group and State technical committee, for a priority area; or

(ii) The NRCS State conservationist, in consultation with the State technical committee, for participants subject to environmental requirements or with significant statewide natural resource concerns outside a funded priority area.

(4) Cost-share payments and incentive payments may both be included in a contract.

(5) Cost-share and incentive payments will not be made to a participant who has applied or initiated the application of a conservation practice prior to approval of the contract.

(b) Except as provided in paragraph (c) of this section, the total amount of cost-share and incentive payments paid to a person under this part may not exceed:

- (1) \$10,000 for any fiscal year; and
- (2) \$50,000 for any multi-year contract.

(c) To determine eligibility for payments, CCC shall use the provisions in 7 CFR part 1400 related to the definition of person and the limitation of payments, except that:

(1) States, political subdivisions, and entities thereof will not be persons eligible for payment.

(2) For purposes of applying the payment limitations provided for in this section, the provisions in part 1400, subpart C for determining whether persons are actively engaged in farming, subpart E for limiting payments to certain cash rent tenants, and subpart F as the provisions apply to determining whether foreign persons are eligible for payment, will not apply.

(3)(i) The NRCS State conservationist may authorize, on a case-by-case basis, payments in excess of \$10,000 in any fiscal year, up to the \$50,000 limitation in paragraph (b) of this section. However, such increase in payments for a certain year shall be offset by reductions in the payments in subsequent years. A decision to approve payments in excess of the annual limit will consider whether:

(A) The practices in the system need to be applied at once so that the system is fully functioning to resolve the natural resource problem;

(B) The natural resource problem is so severe that resolving the problem immediately is needed;

(C) The producer needs to complete the practices in one year so that the farming operation is not interrupted or disturbed by the practice installation over a 5–10 year period; or

(D) The producer can install the practices at a lower total cost when installed in one year, thereby reducing the program payments.

(ii) With respect to land under EQIP contract which is inherited in the second or subsequent years of the contract, the \$10,000 fiscal year limitation shall not apply to the extent that the payments from any contracts on the inherited land cause an heir, who was party to an EQIP contract on other lands prior to the inheritance, to exceed the annual limit.

(iii) With regard to contracts on tribal land, Indian trust land, or BIA allotted land, payments exceeding one limitation may be made to the tribal venture if an official of the BIA or tribal official certifies in writing that no one person directly or indirectly will receive more than the limitation.

(4) Any cooperative association of producers that markets commodities for producers shall not be considered to be a person eligible for payment.

(5) The status of an individual or entity on the date of application shall be the basis on which the determination of the number of persons involved in the farming operation is made.

(6) A participant shall not be eligible for cost-share or incentive payments for conservation practices on eligible land if the participant receives cost-share payments or other benefits for the same land under the Conservation Reserve Program (16 U.S.C. 3831–3836) or the Wetlands Reserve Program (16 U.S.C. 3837 *et seq.*).

(d) The participant and NRCS must certify that a conservation practice is completed in accordance with the contract before the CCC will approve the payment of any cost-share or incentive payments.

(e) CCC expenditures under a contract entered into during a fiscal year shall not be made until the subsequent fiscal year.

§ 1466.24 Contract modifications and transfers of land.

(a) The participant and CCC may modify a contract if the participant and CCC agree to the contract modification and the conservation plan is revised in accordance with NRCS requirements and is approved by the conservation district.

(b) The parties may agree to transfer a contract with the agreement of all parties to the contract. The transferee must be determined by CCC to be eligible and shall assume full responsibility under the contract, including operation and maintenance of those conservation practices already installed and to be installed as a condition of the contract.

(c) CCC may require a participant to refund all or a portion of any assistance earned under EQIP if the participant sells or loses control of the land under an EQIP contract and the new owner or controller is not eligible to participate in the program or refuses to assume responsibility under the contract.

§ 1466.25 Contract violations and termination.

(a)(1) If CCC determines that a participant is in violation of the terms of a contract or documents incorporated by reference into the contract, CCC shall give the participant a reasonable time, as determined by the FSA county committee, in consultation with NRCS, to correct the violation and comply with the terms of the contract and attachments thereto. If a participant continues in violation, the FSA county committee may, in consultation with NRCS, terminate the EQIP contract.

(2) Notwithstanding the provisions of paragraph (a)(1) of this section, a contract termination shall be effective immediately upon a determination by the FSA county committee, in consultation with NRCS, that the participant has submitted false information or filed a false claim, or engaged in any act for which a finding of ineligibility for payments is permitted under the provisions of § 1466.35, or in a case in which the actions of the party involved are deemed to be sufficiently purposeful or negligent to warrant a termination without delay.
